

— LEARN TO FREEDIVE

COMFORT FIRST. DEPTH FOLLOWS.

AIDA & MOLCHANOV'S · BEGINNER TO INSTRUCTOR

Freediving isn't about forcing yourself deeper. It's relaxation, technique and trust, built step by step. Every Blue Element course runs in small groups with instructors who dive far deeper than anything you'll attempt, on a warm, clear, current-free bay that drops steeply just metres from shore. We certify in both of the sport's leading systems, the full AIDA pathway and the Molchanov's Wave system, all the way to instructor.

FIND YOUR LEVEL

- **Never held your breath underwater?** Try Freediving, or go straight to Freediver if you're a comfortable swimmer.
- **Certified to 20 m?** Advanced Freediver.
- **Certified to 32 m?** Master Freediver, then Wave 4 or the Safety Diver course.
- **Master level and want to teach?** Instructor course, AIDA or Molchanovs.

THE CALMEST WATER IN THE CARIBBEAN.

A sheltered volcanic crater, 26–30°C, 20–30 m visibility and almost no current. Coolest in March, warmest in September, diveable all year.

AIDA or Molchanovs?

Both are world-class and we certify in either. AIDA is the most widely recognised competitive curriculum; Molchanovs adds an online training community. Tell us your goals and we'll recommend the fit.

What should I bring?

Swimwear and a towel. We provide all the equipment. Your own mask, snorkel or wetsuit are welcome.

Can I combine courses?

Yes. Many divers do Freediver and Advanced back to back, or Advanced and Master. We plan rest days in and discount the combined booking.

How deep will I actually go?

It depends on the course and on you. We never push; depth follows comfort and clean equalisation.
