YOU'RE INVITED

WE INVITE YOU TO BLUE ELEMENT

NOVEMBER 2026

8–17 NOVEMBER · SOUFRIÈRE BAY, DOMINICA

You are cordially invited to the **Blue Element freediving competition** with **Freedivers United**, streamed live by **DiveEye**.

Founded in 2015, **Blue Element** is the original freediving platform and school in Dominica. Home to warm Caribbean waters and a perfectly protected bay, this is the ideal spot to push your limits and set records on the world stage. No waves, no current, no limit.

> Run under **AIDA** with full World Record status: a sonar-tracked line and a professional safety team on every dive. Event partners: **AIDA**, **Freedivers United** and **DiveEye**.

MISSION

Create the best space for you to compete and train.

VISION

To become the benchmark for competition safety and freediving experiences.

SAFETY

SAFETY FIRST

Safety is our number one priority at **Blue Element**. Every dive is backed by a full competition setup and an evacuation plan for any outcome.

COMPETITION SETUP

- **145 m counterballasted mainline**, Dyneema core for the best FIM and tension specs for CB
- Brand-new sonar systems to track divers deep
- Professional safety team with World Championship, WR and sled experience
- Transport boat to and from the platform during competition and official training
- New dry transition area
- Second counterballasted platform to 90 m for training dives
- 2 deco oxygen kits and a full-face-mask deco kit
- 2 medics on standby
- EZ-PAP CPAP kits for barotrauma and an on-site defibrillator
- Multiple warm-up lines to 55 m
- Platform phone and radios linking the local team and the Coast Guard

EVACUATION PLAN

- An evacuation plan for any outcome
- Hyperbaric chamber at Roseau hospital
- Land, sea and air transport options for every eventuality
- Small-boat transfer to the hospital in Roseau
- Land-vehicle transfer option to the hospital
- Coast Guard on alert for the event, with air and sea rescue options to the neighbouring French islands
- Fast-boat redundancy for channel crossings

At Blue Element, you're safe.

We work with leading professionals in **freediving medicine** and **safety**.

GETTING TO DOMINICA

Dominica is one of the Caribbean's most beautiful and unspoilt islands. Despite its secluded feel, getting here is straightforward, with a range of regional flight and ferry connections.

BY AIR

Douglas–Charles Airport (DOM)

All international flights land at DOM, on the island's north-east coast. Regular flights connect Dominica with major Caribbean hubs:

- Antigua (ANU)
- Barbados (BGI)
- Guadeloupe (PTP)
- Martinique (FDF)
- Puerto Rico (SJU)
- St Maarten (SXM)
- Miami (MIA)

FROM THE UK & EUROPE

The most convenient routes are usually via Antigua, Barbados, Guadeloupe or Martinique, then a short regional flight to Dominica. Most guests find Antigua and Barbados the easiest connections from Europe.

FROM NORTH AMERICA

Direct service is available from Miami. From other North American cities, connect through Puerto Rico, Antigua or Barbados.

BY FERRY

High-speed ferries link Dominica with **Martinique** and **Guadeloupe**: a good option if you want to combine your trip with other islands.

TRAVEL TIPS

- Book flights as early as possible, particularly in peak periods.
- Allow extra connection time when travelling through regional Caribbean hubs.
- Consider arriving a day before the event begins, to allow for any travel delays and to settle in before the programme starts.

If you need help planning your journey, our team will happily recommend the best route from where you are. Ask us for our Soufrière visitor guide for places to stay and eat.
